

Accurately Weighing Africa

AXLE WEIGHING (AW-WP)

Wireless Portable Axle Weighing Scale

Sasco is a dynamic weighing solutions focused company which procures and supports a leading range of globally sourced industrial weighing technologies. Sasco has the highest metrological ranking of any Southern and Central African company, and as a result of our experience gained through 100 years of operation, we are uniquely positioned to specify and supply optimal weighing equipment, automation and weighing information data solutions to Southern and Central Africa's leading industrial companies. Sasco reputation has been built on innovation and choice underpinned by professionalism, modernity and experience.

DESCRIPTION

- The unique structural design accepts the overload capacity of up to 300%.
- The AW-WP is sleek and compact making it easy to transport.
- Example of use: Axle weighing and check weighing in heavy industrial environments.
- Easy to use operating software.
- Battery Life Span: 12 - 25 hours depending on weighing/printing frequency.
- Rechargeable battery.
- Voltage: 6V & 12ah
- In dynamic mode, joint-axis compensation and speed compensation functions are automatically done by the software.
- Multiple seal protection creating a water proof system. The pad features a robust aluminum steel deck construction tested by the manufacturers to withstand harsh environments.
- Waterproof keyboard.
- High-definition LCD backlit dot matrix display.
- Built-in high speed but super quiet thermal printer.

MODEL	AW-WP
Max Capacity (Single Axle)	30T
Pad Dimension	700 x 430 x 30 (mm)
Ramp Dimension	700 x 350 (mm)
Precision	Dynamic $\pm 2\%$
Load Cell Constructions	Based on strain gauge technology
Includes	One set includes: 2 weighing pads
Division	0,5kg, 1kg, 2kg, 5kg, 10kg, 20kg, 50kg
Inspecting Speed	<10km/h on average
Operational Temperature Range	- 45°C to + 70°C
Battery Life Span	12 - 25 Hours depending on weighing / printing frequency
Voltage	6 V & 12 ah (amp per hour)
