Floor Checkweighing Scale

Accurately Weighing Africa

Sasco is a dynamic weighing solutions focused company which procures and supports a leading range of globally sourced industrial weighing technologies. Sasco has the highest metrological ranking of any Southern and Central African company, and as a result of our experience gained through 100 years of operation, we are uniquely positioned to specify and supply optimal weighing equipment, automation and weighing information data solutions to Southern and Central Africa's leading industrial companies. Sasco reputation has been built on innovation and choice underpinned by professionalism, modernity and experience.

GENERAL

With a full keypad that simplifies unit weight and sample entry, the GFK floor scale capably performs checkcounting to a predefined weight or count. Ideal for manufacturing, food processing, stock management and inventory control procedures in warehouse or factory environments.

A durable stainless steel platform and pillar-mounted ABS plastic indicator make the GFK suitable for most counting and weighing applications. The large backlit display is visible in most settings and shows unit weight, total weight and number of pieces.

GFK-M models are NTEP trade certified for selling products by weight.

FEATURES

• Vivid, backlit LCD easily visible in any lighting conditions
• Programmable backlight can be set to "always on," "always off" or "light only when weighing"
• Capacity tracker built into display for easily monitoring possible overloads
• Checkweighing LEDs light to clearly show under, over and acceptable limits
• Adjustable leveling feet help optimise setup
• Colour-coded keys facilitate quick recognition of the most frequently used buttons
• Large, grade 304 stainless steel pan allows easy cleaning
• RS-232 interface for connection to computers and printers
• Sealed keypad protects against dirt and accidental spills
• Audible overload alarm warns when capacity has been exceeded
• Checkweighing with audible alarm
• Parts counting with freely selectable sample sizes
• Parts counting optimisation automatically refines piece weight as parts are added
• Preset tare function speeds the process of repetitive weighing
• Programmable for counting to a preset number of parts
• Selectable digital filtering helps minimise effects of vibration and disturbances
• Zero-tracking feature ensures display returns to zero reading
• Rechargeable battery included for operation almost anywhere
• Programmable auto power-off to save energy

Industrial scale's proven strength brings large-scale benefits.
