

Accurately Weighing Africa

DIGI LABELS

Compact Indicator

Sasco is a dynamic weighing solutions focused company which procures and supports a leading range of globally sourced industrial weighing technologies. Sasco has the highest metrological ranking of any Southern and Central African company, and as a result of our experience gained through 100 years of operation, we are uniquely positioned to specify and supply optimal weighing equipment, automation and weighing information data solutions to Southern and Central Africa's leading industrial companies. Sasco reputation has been built on innovation and choice underpinned by professionalism, modernity and experience.

GENERAL

The thermal head on the electronic printing scale is a critical component of which the lifespan may be increased by proper care. A higher-grade thermal label which has a front and back protective barrier is recommended, ensuring quality product that will last under the most stringent conditions from freezers to areas exposed to excessive amounts on UV light and even water. Using inferior quality thermal labels reduces the lifespan of the thermal head as the uncoated thermal label acts as an abrasive and may deposit residue adhesive build-up on the thermal head.

Sasco supplies only the DIGI approved standard high quality label for the SM110 retail scale. These high quality labels extend the life of the print heads which are one of the most critical component of the SM110. Using inferior quality labels reduces the life of print heads.

SM-110 LABEL SAMPLES

Size	58mm x 43mm
Face Material	Thermal Top
Adhesive Type	Standard Hot-Melt
Stock Code	SCA004

Size	60mm x 55mm
Face Material	Thermal Top
Adhesive Type	Standard Hot-Melt
Stock Code	SCA013

Size	40mm x 62.5mm
Face Material	Thermal Top
Adhesive Type	Standard Hot-Melt
Colour	1
Stock Code	SCA004

SCA013	500 labels per roll	Face Material Thermal Tape Tyoe STD Hotmelt	12 Rolls Per Box
