## Hanging Scales

Sasco is a dynamic weighing solutions focused company which procures and supports a leading range of globally sourced industrial weighing technologies. Sasco has the highest metrological ranking of any Southern and Central African company, and as a result of our experience gained through 100 years of operation, we are uniquely positioned to specify and supply optimal weighing equipment, automation and weighing information data solutions to Southern and Central Africa's leading industrial companies. Sasco reputation has been built on innovation and choice underpinned by professionalism, modernity and experience.

## GENERAL

MIF Scales are compact, portable and robust hanging mechanical scales, suitable for medical, industrial and retail applications. MIF mechanical hanging scales are used for the suspension weighing of grain sacks, feed bags, fertilizer and tote produce bags, as well as by attaching the under balance hook through the gill plate of the fish when weighing fish.

## FEATURES

- Supplied with heavy-duty top and bottom hooks
- Metal spring mechanism is hard-wearing and durable
- Mechanical dial ideal for use where power is unavailable
- Zero adjustment facility
- External calibration
- Full range tare
- Large easy to read dial display
- Precision load cell technology
- Simple user-friendly operation
- Lightweight design simplifies transport and portability
- Rugged construction stands up to industrial use

**MIF Scales are compact, portable and robust hanging mechanical scales.**

## GENERAL SPECIFICATIONS

- Weighing units: g, kg
- Stabilization time: 3
- Calibration: External calibration
- Construction: Steel
- Operating Temperature: -10° to 40°C

## METROLOGY INFO

- Capacity: 25kg to 200kg
- Readability: 0.1kg to 1kg

## APPLICATIONS

- Weighing

## WEIGHT AND DIMENSIONS

- Net Weight: 1.04kg
- Product Dims: 250mm x 170mm x 40mm
