## Overview

Established in 1907, Sasco Africa is a leader in providing industrial and commercial weighing solutions across the African continent. With over a century of expertise, Sasco has built a reputation for precision, innovation, and reliability in the weighing industry. The company offers a wide range of products and services, from simple retail scales to sophisticated, integrated systems for heavy industrial applications, enabling businesses across Africa to operate with accuracy and efficiency.

## Vision and Mission

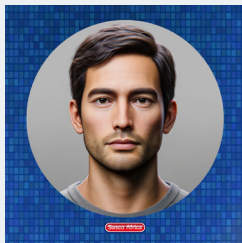

Sasco Africa is dedicated to becoming the leading benchmark for weighing solutions in Africa, driven by a commitment to innovation, customer satisfaction, and localized support. The company's vision includes continuing to expand its footprint across the continent while tailoring its services to meet the specific needs of each market.

## Product and Service Offerings

Sasco Africa's extensive portfolio of industrial weighing includes products and services designed to meet the diverse needs of its clients. Key offerings include:

- **WEIGHBRIDGES AND VEHICLE WEIGHING SYSTEMS:** Essential for industries such as transportation, mining, and logistics, these systems include a range of single deck weighbridges, multi deck weighbridges and weigh-in -motion products designed to cover the full spectrum of on road truck weighing , PDS trucks as well and the weighing of mega mining trucks.
- **INDUSTRIAL SCALES:** Serving sectors like manufacturing, food processing, and agriculture, these scales provide accurate measurements for various materials, supporting quality control and operational consistency.
- **PROCESS WEIGHING SYSTEMS:** A cornerstone of Sasco's offerings, the process weighing range includes:
  - **Belt Scales:** Designed for continuous weighing of bulk materials on conveyor belts, suitable for industries like mining and quarrying.
  - **Hopper Scales:** Used for measuring the weight of materials in hoppers, ideal for batching and inventory management in industries like food processing and chemicals.
  - **In-Line Check Weighers:** These systems ensure products meet specified weight requirements as they move along production lines, widely used in packaging

- **WEIGHING SOFTWARE AND AUTOMATION:** Sasco Africa's software solutions are at the cutting edge of technological innovation, integrating with weighing systems to offer automation, data management, and real-time monitoring. The software facilitates seamless integration with existing industrial systems, enhancing efficiency and decision-making processes. The company's solutions include both standard and custom software solutions, enabling businesses to tailor their weighing processes to specific operational needs. Sasco's automation capabilities extend to remote monitoring and control, ensuring optimal performance and minimal downtime.

- **AI INNOVATION WITH JOSH:** In line with its commitment to technological advancement, Sasco Africa has launched JOSH, an AI-driven platform designed to provide comprehensive weighing product advice.

- **TRAINING AND DEVELOPMENT:** Understanding the importance of skill development, Sasco Africa has established the Sasco Weighing Academy. This platform offers a range of training programs, including certified courses for scale repairers and weighbridge operators. The academy also provides online resources, webinars, and detailed manuals, ensuring that customers can effectively operate and maintain their weighing equipment.

## Official Course Library

Our courses are created by industry experts, include real world scenarios, and is very easy to understand. We also include video tutorials, practice exams and if you get stuck or just need clarification on various topics, you can speak directly to a certified instructor to get some assistance.

If you have any questions, please don't hesitate to reach out to us.

**Sasco Certified Weighbridge Operator**  
(Online Training Course)

This course provides training in the key aspects of weighbridge operations such as metrology, verification procedures, and various software solutions.

**Sasco Accredited Scale Repairer**  
(Online Training Course)

The Sasco Africa Accredited Scale Repairer Program (ARP) is a detailed technical program that covers both basic and advanced repair of weighing systems.

**Metrology Fundamentals For Regulators** (Online Training Course)

This course provides an understanding of weighing systems, various instrumentation differences and the correct verification processes for weighing systems.

## Commitment to Excellence

Sasco Africa's commitment to excellence is evident in its customer service and support. The company offers around-the-clock assistance, ensuring that clients receive the help they need, whenever they need it. Sasco's Level 1 BBBEE status further reflects its dedication to social and economic transformation within South Africa.

## Future Plans

Looking forward, Sasco Africa aims to continue expanding its influence across the continent, leveraging its technological expertise to introduce new products and services. Upcoming developments include the launch of an online learning portal and an e-commerce platform, making it easier for customers to access Sasco's full range of offerings.

The integration of AI through JOSH, coupled with ongoing software advancements, positions Sasco Africa as a leader in the future of industrial and commercial weighing solutions.

With its unwavering commitment to innovation, customer satisfaction, and industry leadership, Sasco Africa is set to remain at the forefront of the weighing solutions industry in Africa.
